

## **ILFORD OMNIJET Bright White Film**

### **ON3BWF7 (220gsm)**

ILFORD OMNIJET Glossy White Film is a polyester-based gloss white film with an instant-dry ink receiving layer. It is designed for use with both piezo and thermal wide format inkjet printers, and is compatible with both dye and pigment ink types. It may be used un-laminated with both dye and pigment inks to produce images for short-term indoor display. When laminated with a suitable protective film, it is ideal for long-term pop-up display applications for exhibitions, trade fairs and point-of-sale, the polyester base making it tear-resistant and dimensionally stable.

#### **FEATURES**

Excellent imaging performance and permanence  
Indoor display graphics  
Short term outdoor, if laminated and using pigment inks  
Instant dry

#### **PRINTER & INK COMPATIBILITY**

This Paper is designed for use with most wide format inkjet printer systems using either aqueous dye or pigment inks from major manufacturers.

**IMPORTANT** Printer and driver settings may need careful setup to ensure optimum performance. Ink loads need to be set appropriately for the ink/printer combination in use.

#### **AVAILABILITY**

36" (91,4cm)

#### **PHYSICAL PROPERTIES**

Weight	220 gsm
Opacity	98 %
Caliper	180 micron (7 mil)
Tint (CIE L* a* b*)	96,0   -0,2   -3,0

#### **ENVIRONMENTAL CONDITIONS**

Operating	15–25°C, 35–65% r.h. non-condensing
Storage	15–25°C, 35–65% r.h. non-condensing

#### **ADDITIONAL INFORMATION**

Finished prints should be interleaved and stored carefully to prevent scratching. Fine art ink and print surfaces are more delicate than conventional RC inkjet prints and should be handled with care.
